CAREER OBJECTIVE

Aspiring BTech Computer Science student seeking an internship to gain hands-on experience to grow in a dynamic environment while continuously learning and innovating. Eager to apply technical and creative skills to real-world projects and contribute to impactful solutions.

EDUCATION

Bachelor of Technology (Computer Science Engineering), SRM University.   2023 - Expected 2027

GPA: 9.59/10.0

New Prince Shri Bhavani Senior Secondary School (CBSE) .   2023

Percentage: 77%

SKILLS

Technical Skills: Data Science, Database Management, UI/UX, Design, Video Editing.
Languages and Tools: Python, C/C++, JavaScript, HTML/CSS, Java, Figma, Tkinter, Canva.

PROJECTS

Grocery Management
Next.js, React.js, HTML, CSS, Vercel, MongoDB

- A platform to keep track of inventory.
- You get expiry notifications and recipe suggestions.

Pharmacy Database Management
Python, SQL

- A system that allows pharmacies to manage medicines, customers, suppliers, and operations efficiently
- Designed relational database schemas to ensure data consistency and quick retrieval**.**
- Automated key workflows like stock management and supplier records, reducing manual effort.

Weather App
Python, PyQt5, OpenWeatherMap API

- Built a desktop weather application using real-time API calls.
- Features include emoji-based UI, error handling, and weather data visualization.

CERTIFICATIONS

- Python 101 for Data Science – IBM (June 2024)
- Generative AI – Guvi (October 2024)

- 160 Days DSA Solving – GeeksforGeeks (May 2025)
- Java Programming – Great Learning (October 2024)
- Java Python (Basic) – HackerRank (October 2024)
- Data Science Workshop – IIT Madras (November 2025)
- Cybersecurity, AI, Web Dev Workshop – GeeksforGeeks (January 2025)
- Internship on Python – Pantech Solutions (June 2025)
